Part A

Q1:

Declare N : INTEGER

Output "Enter N: "

Input N

While $N \geq 1$ DO

Output N

$N \leftarrow N - 1$

Endwhile

1. Declare N as integer

2. Take input for N from user

3. Iterate a pre-conditioned loop until the N is less than 1

4. Decrement N and when the condition fails, terminate the loop.
